Belgian

Driver's license
Category B

Developer skills

Front-end
- React / Angular / Tailwind css
- Flutter

Coding & Back-end
- C# / .NET API
- Java / RESTful API
- Python / FastAPI

Database & Cloud
- MySQL / Azure / Supabase

Tooling & environment
- Docker / Dev Containers
- Git
- Figma
- Salesforce
- Microsoft 365

Language skills

Dutch - Native language

English - Professional proficiency

Hobbies

Fitness

Hiking

Tennis

About me

I hold a **Bachelor's degree in Applied Computer Science** *(Magna Cum Laude)* from **Thomas More** and bring **hands-on experience** from various **IT projects**. Throughout my studies, I worked both **independently** and in teams, utilizing diverse technologies and development methodologies. This gave me strong practical **experience** in **front-end** and **back-end** development, working with **databases** and **APIs**, and **collaborating** effectively within a **team** context.

Additionally, my **internship** allowed me to **gain** valuable **professional experience** in **developing** and **maintaining** an **application** within an **enterprise environment**.

Education

- **Bachelor of Applied Computer Science, Magna Cum Laude**
  Thomas More, Geel / Sep. 2023 - Jun. 2026
  - Built a strong foundation in software development, web technology, databases, and working with APIs within project-based assignments.
  - In addition, developed many soft skills such as professional communication, collaboration, presenting, and basic business insight; additional self-study including Docker/Devcontainers.
- **TSO Information Technology**
  GO! Onderwijs Vlaanderen / Sep. 2017 - Jun. 2023
  - This is where my IT journey began: learning to program in C#, HTML/CSS, working with Linux and database knowledge (ERDs) + applications such as Access.

Experiences

- **Intern - Axxes IT Consultancy, Antwerp**
  Feb. 2026 - May. 2026
  - Contributing to the development and support of an internal web application, including frontend and backend development, documentation, testing, and collaboration within a professional team.
- **Student job - Colruyt, Herentals**
  Summer vacation 2021 - 2025
  - Cashier work and customer service combined with restocking shelves, store maintenance, and simple administrative tasks such as labeling and inventory tracking.
- **Intern - NetConnect, Zandhoven**
  Mar. 2023 - 3 weeks
  - Contributed to the installation and configuration of business networks, including cabling, patch panels and access points. Also supported the creation of network plans.
